## YOUR PARTNER

### *for* Ensuring an Engaged, Compliant Workforce

Financial institution regulations are constantly changing. That means preparing your team needs continual attention, including the frontlines, compliance team, executive leadership and board of directors. When you factor in a tight labor market and the need to provide training that engages employees, that's one big challenge.

Wouldn't life be easier if you had one place to go for all your regulatory compliance and professional development needs? You'll find everything you need from OnCourse Learning.

- Deep experience in financial services
- Enterprise compliance, risk management and professional development courses
- ACAMS accredited continuing education and certifications
- Multi-modal formats - webinars, videos, micro-learning, animation and more
- Regulatory compliance updates

We enable career success with a flexible, purpose-built learning management platform, and effective and engaging online courses designed to minimize and mitigate compliance risk. Our learning, subject matter and compliance experts monitor regulatory changes and update courses to deliver compliance and professional development that sticks.

Over 10,000 clients and partners have adopted OnCourse Learning solutions to efficiently manage complexity, change and growth. Plus, over the course of our 40+ year history we have trained over 190,000 individuals with our NMLS-approved licensure and continuing education courses.

### Webinars presented by **Industry Experts**

In addition to hundreds of online training courses, our clients also have access to more than 450 webinars delivered by industry professionals on some of the most critical topics in the financial services industry. Some of these topics include BSA, Compliance, Cybersecurity and more. Save on webinar subscription packages that never expire!

## Appraisals

30 Minutes

In this course, participants will learn the basics of the property appraisal process. This includes a review of the Uniform Standards of Professional Appraisal Practice (USPAP), which govern appraiser conduct, and the entities and regulations that apply to appraisal activities. This course will also briefly discuss recent changes to federal law that impact appraisal requirements, including standards for providing appraisal reports and related disclosures. Finally, students will learn about the three approaches that professional appraisers use when developing a property valuation, and will explore the appraisal process step by step.

## Beneficial Ownership

30 Minutes

This course explains the requirements of the final rule on beneficial ownership and related customer due diligence (CDD), a CDD Rule issued by FinCEN. The impact of the newly required beneficial ownership transparency and the need to obtain information from customers who were not required to provide such information in the past is major. The implementation of the various aspects of this rule affect multiple departments and lines of business. The new regulatory requirements mandate review of and revisions to Customer Identification Programs, OFAC procedures, CIP/CDD Risk Assessments, and BSA/AML policies.

## Business Continuity and Disaster Recovery

90 Minutes

If a natural disaster or other unexpected catastrophic event disrupted your business's day-to-day operations, would you or your employees know what to do next? Learn about universal and location-specific threats, personal and employee preparedness, and the basics of building a business continuity plan for your institution.

## CCPA

30 Minutes

In today's ever-advancing technology-driven environment, data is continually changing hands. Whether the data comes or goes by way of paper or computer, this information must be safeguarded to the fullest extent possible. Upon completion of this course, employees and supervisors will have a better understanding of the California Privacy Rights and Enforcement Act (CCPA) of 2020. This course is intended to help you recognize CCPA violations and how to address them.

## CFPB Examinations:

### Understanding Procedures, Ensuring Compliance

30 Minutes

This course highlights the portion of the Manual dedicated specifically to examinations of mortgage professionals, breaking down those procedures step by step. From the start of the examination process to the final outcome, this course helps students to understand the goals of a CFPB examination, each step involved, and potential results. This course allows mortgage originators to gain a clearer understanding of what they may expect if they face an examination, and highlights the importance of maintaining day-to-day compliance to ensure positive examination results, a successful and compliant business, and, most importantly, a low level of potential risk to consumers.

## Change Management

This course will help participants understand the importance of the Rule and its effect on the mortgage landscape.

## Managing OREO

### 20 Minutes

Other Real Estate Owned (OREO) is a class of property that is owned by a lender after a foreclosure sale has not been successful. When the lender repossesses the property, the financial statement will classify the property as "other real estate owned" since owning the property was not in the lending institutions' original intent - they expected the loan to be repaid in full, with interest. This course will provide an overview of the OREO terms and concepts, the associated risks, and guidelines for managing the OREO situation.

## Military Lending Act

### 30 Minutes

This course provides general knowledge of the Military Lending Act and its requirements for credit unions. It begins by discussing how the Military Lending Act has evolved since its implementation in 2007. Elements of coverage, general requirements, and other key aspects are considered.

## Mortgage Loan Cycle

### 50 Minutes

This course concentrates on the basic concepts and practices related to the loan cycle, and will provide an overview of the process from origination to funding. Each of the steps of the loan cycle and the legal requirements related to each step will be reviewed.

## Mortgage Loan Processing 101

### 15 Minutes

This course will provide a basic introduction for loan processors that are new to the business, or for those professionals looking for a refresher. Students will have the opportunity to review information relating to automated loan origination and underwriting, including the most commonly used systems, as well as the avenues by which a loan processor may receive a new loan application. In addition, students will take a look at information relating to credit reports, appraisals, and important disclosures required by law. Finally, students will review important responsibilities related to documentation and verification, as well as time management strategies and ethical considerations.

## Mortgage Math

### 30 Minutes

In this course, students will explore the fundamental financial calculations of loan origination. Concepts learned include principal and interest payments, income determinations, DTI and LTV ratios, periodic and per diem interest, and more. Students will learn formulas for these calculations and others, such as discount points and closing costs, and will apply their knowledge through several interactive scenarios to test their new skills.

## Mortgage Profession

### 30 Minutes

This course examines the roles of various "players" in the industry, important considerations in the borrower qualification process, and the essentials of the loan cycle. Students will also learn some of the mathematics of mortgage lending, and learn how all of these elements fit together to ensure a smooth, safe mortgage loan origination process.

## Office of Foreign Assets Control (OFAC)

### 30 Minutes

Expand your knowledge of OFAC regulations. Find out what these regulations entail, and learn compliant best practices to follow if you confirm an OFAC match during a transaction.

## Office of Foreign Assets Control (OFAC) - E3

### 30 Minutes

This new microlearning video course explains the purpose and mission of the Office of Foreign Assets Control (OFAC). The course will provide an overview of the coverage and scope of the sanctions and regulations administered by the OFAC. The sanctions and regulations require financial institutions, such as yours, to block or restrict transactions involving individuals, entities, or governments that are known or suspected of financial criminal activity. You will be an important participant in your financial institution's efforts to help ensure that terrorists, drug cartels, criminal enterprises, and foreign governments subject to U.S. economic sanctions are not using the U.S. financial system to circumvent U.S. economic sanctions, launder money, and further their illegal activities. The course will also describe the essential elements of a sound OFAC compliance program.

## Originating VA Loans

### 30 Minutes

This course will help mortgage professionals to understand general concepts about VA lending, including its background, current requirements, eligibility standards, how to become an approved lender, available loan types, and more.

## Providing Service to Customers with Disabilities

### 60 Minutes

Learn to better serve, interact with and accommodate customers who have disabilities. Practice your skills using case studies that will help you identify different disabilities, and discover steps you and your institution can take for a more accessible facility.

## Red Flags Rule

### 15 Minutes

Course participants will understand the origins of federal efforts to fight identity theft, learn the overall requirements of the Red Flags Rule, gain a familiarity with the expectations that relate to the mortgage industry, and review specific steps that mortgage professionals can take in the loan origination process to detect and help prevent identity theft.

## Reverse Mortgages

### 30 Minutes

This course will take students through a review of what exactly reverse mortgage loans are, the types of products available, and to whom they are best suited. In addition, students will explore government-insured reverse mortgage loans in-depth, understand prohibitions and regulations for these loan types under the law, and examine the steps of the reverse mortgage lending process.

### 30 Minutes

This course explores various aspects of the Gramm-Leach-Bliley Act (GLB Act). It discusses the purpose of the GLB Act, the protections offered under its provisions, details of the various privacy and opt-out notices it requires, and the differences in these requirements for consumers versus customers. The course also discusses practices prohibited and limited by the Act, as well as penalties for violations.

## Securitization and the Secondary Mortgage Market

### 30 Minutes

This course will review basic concepts related to securitization, explore its role in the mortgage industry, and learn about who is typically involved in the process. Students will also examine further investment opportunities that can result from the formation of mortgage-backed securities, and learn about the future of this part of the industry.

## Servicemembers Civil Relief Act (SCRA)

### 60 Minutes

This course provides an overview of the Servicemembers Civil Relief Act (SCRA) and its applicability to financial institutions. Though the SCRA provides a variety of protections for servicemembers, this course addresses those provisions that may affect financial institutions. The provisions of the SCRA discussed in this course include protections against default judgments, stays of civil proceedings, rent and mortgages, installment contracts, interest rate protections, and fines and penalties for violations.

## Servicemembers Civil Relief ACT (SCRA) - E3

### 45 Minutes

## Compliance Basics

### A Borrower's Right to Privacy in a Mortgage Transaction

**30 Minutes**

Privacy rights are a significant concern for mortgage professionals who are involved in the solicitation, origination, processing, closing and servicing of mortgage loans. Multiple laws protect the privacy of borrowers, and violation of these laws can result in serious liability. The following course reviews the privacy laws that protect borrowers from the time they receive a solicitation for a mortgage loan until their loans are repaid. It also discusses the actions that are necessary to maintain compliance with privacy laws, which are an ongoing concern for mortgage professionals.

### AML/BSA - Anti-Money Laundering/Bank Secrecy Act - E3

**45 Minutes**

This course explains the money laundering process and educates you about ways to prevent money laundering at your financial institution. The Bank Secrecy Act (BSA) helps the United States government combat money laundering and other illegal financial activity. Within the framework of the BSA, this course also discusses the key elements of an anti-money laundering (AML) compliance program, which is required for all financial institutions.

### Currency Transaction Reports (CTRs)-E3

**30 Minutes**

The Bank Secrecy Act (BSA) and related laws exist primarily to prevent money laundering and other illegal financial activity. To comply with the BSA, financial institution employees must be able to recognize when cash transactions trigger a Currency Transaction Report. This course defines large currency transactions, discusses aggregation rules and expands on the CTR exemption process.

### Fair Credit Reporting Act (FCRA)

**60 Minutes**

The Fair Credit Reporting Act (FCRA) was enacted in 1970 to improve accuracy, impartiality, privacy, and fairness in credit reporting. This course explores FCRA and its regulatory authority and applicability. Students will learn the significance of its provisions, the rights of consumers to protect themselves and their information and compliance procedures and concerns under the law.

### Fair Lending Laws Overview

**30 Minutes**

This course provides participants with an overview of the history and goals of fair lending laws. This includes information about the current requirements of fair lending laws, legislative and regulatory updates, a review of amendments made by the Dodd-Frank Act to fair lending laws and more. This course has been revised and completely updated to incorporate CFPB rule changes, and provides students with the most up-to-date information available regarding fair lending laws in the mortgage marketplace.

### Home Mortgage Disclosure Act (HMDA)

**20 Minutes**

Congress enacted the Home Mortgage Disclosure Act (HMDA) in 1975 to discourage creditors from denying loans to qualified applicants because of personal characteristics like race and sex, and to encourage lending institutions to provide loans to consumers in their communities. HMDA requires covered institutions to submit reports about their mortgage lending activities to help citizens and public officials determine whether community housing needs are being met. This course will review HMDA and its provisions, the legal and ethical importance of its reporting and disclosure requirements, as well as updated reporting requirements for covered entities.

### Homeowners Protection Act (HPA)

**15 Minutes**

Congress passed the Homeowners Protection Act (HPA) in 1998 to facilitate the cancellation of private mortgage insurance (PMI). This course provides a review of the provisions of the Homeowners Protection Act, including definitions of key terms, the scope and coverage of the law, disclosure requirements, guidelines for compliance and more.

### Suspicious Activity Reporting (SAR)-E3

**30 Minutes**

The Bank Secrecy Act (BSA) and its related laws exist primarily to prevent money laundering and other illegal financial activity. To comply with the BSA, all financial institution employees must be able to detect and report suspicious activity. This course defines and identifies several types of suspicious activity and discusses your reporting responsibilities.

### Suspicious Activity Reports - Red Flags for Lenders-E3

**15 Minutes**

The Federal Financial Institutions Examination Council's (FFIEC's) BSA/AML Examination Procedures provide examples of potentially suspicious activities, or "red flags," for both money laundering and terrorist financing. Red flags may help financial institutions recognize possible money laundering and terrorist-financing schemes. This course will introduce you to various examples of red flags relevant to your role at your financial institution.

## The Equal Credit Opportunity Act (ECOA)

30 Minutes

In 1974, Congress enacted the Equal Credit Opportunity Act (ECOA) to eliminate discriminatory treatment of credit applicants. ECOA and its regulations, known as Regulation B, are intended to promote the availability of credit to all creditworthy applicants regardless of gender, race, color, religion, national origin, marital status, age, or the fact that the applicant receives income from a public assistance program or has exercised his/her rights under the Consumer Credit Protection Act. This course provides a review of ECOA's requirements, including protected classes, disclosure requirements, special purpose credit programs and more.

## The Real Estate Settlement Procedures Act (RESPA)

## Job Knowledge

### Adjustable-Rate Mortgages

30 Minutes

This course will focus on essential information about adjustable-rate mortgages, their role in the current mortgage marketplace and requirements for suitability and disclosures. Course participants will also learn about available ARM products, adjustments and rate caps and sample calculations.

### Advanced Financial Math

120 Minutes

This course reviews the math needed to solve most basic financial problems. It includes mathematical equations and provides examples.

### Analyzing Personal Financial Statements

60 Minutes

It is important to review personal financial statements (PFSs) to gauge the creditworthiness of individual borrowers in both consumer and private financial institution situations. Reviewing personal financial statements is also important to gauge the financial strength of individuals as principals and guarantors of closely held businesses, both "small" and "middle market." Lenders are able to use these forms as a window to the unique, interwoven relationship between a principal's business and the principal/guarantor; in fact, failure of one usually leads to the failure of the other.

### Appraisals

30 Minutes

In this course, participants will learn the basics of the property appraisal process. This includes a review of the Uniform Standards of Professional Appraisal Practice (USPAP), which govern appraiser conduct and the entities and regulations that apply to appraisal activities. This course will also briefly discuss appraisal requirements, including standards for providing appraisal reports and related disclosures. Finally, students will learn about the approaches that professional appraisers use when developing a valuation and explore the appraisal process step by step.

### Beginning Financial Math

This course discusses percentages, interest rates and the essential equations used to make calculations pertaining to loans.

### Consumer Credit Products

90 Minutes

This course covers key features and benefits of installment loans, home equity loans and lines of credit, and credit cards. It also reviews credit concepts, such as closed-end (one-time borrowing that is repaid in full) and open-end (used repeatedly up to the credit limit after being paid back). Finally, this course covers various value-added products and services that are available with consumer credit products. Please note: This course does not cover business loans or traditional first mortgage loans.

### Escrow Accounts and Disclosures

30 Minutes

This course explains what escrow accounts are and how they are used. It also discusses escrow analysis, escrow statements, and required disclosures.

### FHA Factor in Mortgage Lending

30 Minutes

In this course, participants will review the role of the Federal Housing Administration and the purpose of FHA loans. Students will explore FHA programs and their unique features, discuss a handful of loan types and the qualifying factors involved in origination and review the origination and processing steps for FHA reverse mortgages and refinances.

## Fast Track to Success: A Primer for New Mortgage Loan Originators

360 Minutes

There are many facets to the role of a mortgage loan originator; consumers often depend on loan originators to guide them through their transaction. Successful mortgage loan originators have a firm grasp of the many intricacies of their job, and know the importance of remaining well-informed in order to keep up in this fast-paced industry. This course will provide new mortgage loan originators with insight into the industry, giving them an opportunity to become familiar with the unique responsibilities and characteristics of the job. Students will also review some basics of the industry itself, to ensure that they are well-equipped with the knowledge necessary to start out on the right foot and find the fast track to success as a mortgage loan originator.

## Key Components of Credit Reports

30 Minutes

This course will help mortgage loan originators become conversant in and knowledgeable of all aspects of the credit report, its contents and its role in the loan decision process. It is important to be familiar with the components of the credit report, how the report is compiled and what the score will ultimately mean for a potential borrower. By examining the specifics of the credit report, one can better help the potential borrower understand the process and make a credit decision that is right for them.

## Managing OREO

20 Minutes

Other real estate owned (OREO) is a class of property that is owned by a lender after a foreclosure sale has not been successful. When the lender repossesses the property, the financial statement will classify the property as "other real estate owned" since owning the property was not in the lending institution's original intent; it expected the loan to be repaid in full with interest. This course will provide an overview of OREO terms and concepts, associated risks, and guidelines for managing an OREO situation.

## Mortgage Loan Cycle

50 Minutes

In the field of mortgage lending, the term "loan cycle" refers to the process of obtaining and paying off a home loan. This course concentrates on the basic concepts and practices related to the loan cycle, and will provide an overview of the process from start to finish. Each of the steps of the loan cycle and the legal requirements related to each step will be reviewed.

## Mortgage Loan Processing 101

15 Minutes

Mortgage Loan Processing 101 provides an exciting crash course in the basic principles of loan processing. Participants will learn the responsibilities of a loan processor, important elements of the loan application process, the fundamentals of credit scoring, and more. Students will have the opportunity to review information relating to automated loan origination and underwriting, credit reports, appraisals and important disclosures required by law.

## Mortgage Math

30 Minutes

Successful loan originators need to have a solid grasp of the concepts and calculations required in order to present clear solutions for their customers. It is crucial for mortgage professionals to understand the basic concepts behind common loan origination calculations; advanced number concepts allow the loan originator to look more deeply into the benefits of a transaction for the borrower. In this course, students will explore the fundamental financial calculations of loan origination and apply their knowledge to test their skills.

## Mortgage Profession

30 Minutes

Mortgage origination is an exciting career; few other professions allow exposure to a number of different industries and interesting challenges. With a foot in both the real estate market and the financial industry, mortgage professionals participate in one of the most important financial decisions that many consumers make over the course of their lives. Good communication skills and the ability to appropriately advise borrowers are essential to a successful loan origination. An understanding of how the industry operates and knowledge of the factors critical to originating good loans are also important components. This course examines all of these and more, reviewing the roles of various "players" in the industry, important considerations in the borrower qualification process and the essentials of the loan cycle. Students will learn how all of these elements fit together to ensure a smooth, safe mortgage loan origination process.

## Originating VA Loans

This course discusses loans secured by real estate and introduces the laws and regulations that apply to second lien mortgage loans secured by one-to four-family dwellings.

## Securitization and the Secondary Mortgage Market

30 Minutes

Securitization is the process by which investors buy groups of loans in the secondary mortgage market. This gives lenders a source of funds to continue making new mortgage loans available, supporting a healthy housing market. This course will review basic concepts related to securitization, explore its role in the mortgage industry and discuss who is typically involved in the process.

## Subprime and Predatory Lending

60 Minutes

This course provides basic knowledge about the subprime market and the characteristics of predatory lending. It begins by explaining the differences between acceptable loans to the subprime borrower and predatory loans, then gives a review of the subprime market. Predatory loan types are described in detail, as is the risk of such loans to your customers and your institution. Current regulatory oversight is reviewed, including guidance from regulators. The steps regulators are taking to address subprime and predatory lending are discussed, as well as current congressional involvement.

## Title Insurance

15 Minutes

This course concentrates on one of the basic concepts related to the mortgage loan cycle: title insurance. This course will provide students with an overview of reasons for title insurance, types of title insurance and key elements of title. It also discusses the steps in the title process and some important details of the closing and post-closing process.

## Underwriting

10 Minutes

Underwriting is the process of evaluating a loan applicant's financial information and facts about the real estate used to secure a loan to determine whether a potential loan is an acceptable risk for a lender. This course will examine underwriting standards and guidelines, help students understand the various responsibilities of the underwriter, review how to properly complete and organize a file for submission to the underwriter and explore common underwriting pitfalls.

## General Topics

### Anti-Terrorism-E3

## Ways to Build Wealth

### 60 Minutes

This lesson plan takes you through investment analysis, which encompasses methods used to determine an investment's value. This is important because it can prevent you from paying more for an investment than it is really worth. Investors analyze individual investments, the market as a whole, and the companies that issue investments; each of these approaches has its own name and methods. In addition to these approaches, you will learn about short-term and long-term investing, and how each works for different types of investors.

# REAL Customer Service

## Recommended for:

- All employees

Delivering great value to customers is about more than just ensuring their satisfaction with your organization's products and services. To be a leader in the marketplace, employees at every touch point within your company must go the extra mile and deliver a consistent, world-class experience. Customer Service courses teach employees how to provide stellar customer service that will set your institution apart from the competition.

## Customer Service

### 60 Minutes

Providing excellent customer service is essential to every financial institution's success. This course introduces the five tenets of service, and provides tools that will help you consistently treat customers with courtesy, respect and value.

## REAL Customer Service 1 - Showing Customers You Care

### 60 Minutes

Providing a prompt service solution is only one part of the customer-service equation. Research has shown that customers want a quick solution, but they also want to be treated in a caring manner while their issues are being addressed. Strengthen your relationships with customers by learning how to communicate genuine concern during every interaction.

## REAL Customer Service 2 - Using Language to Serve the Customer

### 60 Minutes

Language is powerful - particularly when helping customers meet requests and resolve issues. Sharpen your verbal skills and leave customers with a more favorable impression of you and the organization you represent.

## REAL Customer Service 3 - Opening the Conversation

### 60 Minutes

You only have one chance to make a good first impression. Increase customer satisfaction by learning how to establish instant rapport on the phone. Discover how to pave the way for customer conversations by delivering a professional opening in an upbeat, happy-to-help tone.

## REAL Customer Service 4 - Diagnosing Customer Needs

### 60 Minutes

Ask questions. Listen. Confirm your understanding. Get savvy about these essential skills, and discover how they can help you better meet customers' needs and ensure their satisfaction.

## REAL Customer Service 5 - Responding to Customer Requests

### 60 Minutes

Answering customer inquiries quickly and correctly shows customers that you and your company are ready, willing and able to satisfy their concerns. Find out how to handle customers' requests you can't fulfill in a way that demonstrates value.

## REAL Customer Service 6 - Taming Challenging Conversations

### 60 Minutes

Keeping your cool in challenging conversations with customers is an art. Attain the skills you need to tame tough conversations when dealing with angry callers, mounting time pressures and highly repetitive tasks.

## REAL Customer Service 7 - That's a Wrap - Closing the Conversation

### 60 Minutes

By the close of a customer call, you have likely taken the appropriate steps to solve the customer's problem or address his or her request. You're not done yet, though! Learn how to handle the rest of the conversation in a way that can help prevent misunderstandings, reduce callbacks and increase customer satisfaction.

## REAL Sales

Sales are the core of every business, and the barometer through which growth is measured. Sales experience courses teach your sales team how to deepen customer relationships using a variety of proven techniques. From ways they can increase the value of transactions through cross-selling, to the art of anticipating and overcoming prospective customers' objections, this effective curriculum links theory with practice to accelerate success.

### Recommended for:

- Commercial Bankers
- Compliance Professionals
- Mortgage Bankers
- Retail Bankers
- Trust Professionals

### Cross-Selling

#### 90 Minutes

To be competitive in today's financial services marketplace, institutions must offer their customers a wide range of financial products and services. Completing this course will introduce a variety of these products and services, in addition to reviewing basic cross-selling and communication skills which aid in building long-term relationships with your customers.

### REAL Sales 1 - The Other Side of Service

#### 60 Minutes

In your role as a sales person, you must also uncover customers' unspoken needs and match them with the appropriate products and services that will address them. When you've finished the three lessons in this module, you'll have an opportunity to complete a self-assessment to review what you've learned and test your knowledge.

### REAL Sales 2 - Adding Value Through Cross-Selling

#### 60 Minutes

Making sure customers' unrecognized needs are addressed before the contact is concluded is yet one more way you can provide total service. Learn to anticipate customers' requirements at every interaction, and discover ways you can develop deeper customer relationships. Includes three lessons and a self-assessment.

### REAL Sales 3 - Adding Value Through Up-Selling

#### 60 Minutes

Like cross-selling, up-selling is another facet of offering total service to customers. Help customers streamline productivity, while also increasing the size or value of the sale through up-selling. Each lesson of this module includes a self assessment so you'll have an opportunity to test your knowledge and apply what you've learned.

### REAL Sales 4 - Overcoming Resistance

#### 60 Minutes

When it comes to cross-selling, the best defense is a strong offense. Two of the keys to serving customers completely? Knowing how to anticipate their objections and being prepared to overcome them. Complete five short lessons in this module, then apply what you've learned to your own job when you've finished the lessons in a self-assessment.

You will walk through how to write strong emails, when to write these emails and learn the key formats that are conducive to communicating your message.

## Impactful Communication - Graduated Learning

### 7 Minutes

Graduated learning is the art of providing only a little information at a time so that the person can digest the development and learning slowly. Often, people want to reach the end result overnight. However, providing too much too quickly can overwhelm some people. By slowly working towards it and giving them only what they need to know when developing them can help ensure they get there faster.

## Impactful Communication - Effective Listening

### 10 Minutes

What does it mean to actually listen? This skill can be so easy to understand but so difficult to actually implement. It is not only about how the individual makes sure they are listening and seeking to understand but more importantly to ensure the other person knows that they are being listened to. Take it a step further and acknowledge that many are terrible at this skill so it can be hard to be a great listener when the person on the other side can't reciprocate. This leads to misunderstandings, conflicts, etc. Focus on how to help people through the skill of effective listening on this module.

## Impactful Communication - Assertive Behavior

### 7 Minutes

So often people struggle to be assertive. Most come from preference of passive or aggressive. What is the difference? What is the tact or way to approach people where it comes off as assertive? So when you process through this, share what skills with brief descriptions help get people to leadership. Talk about general best practices when being a leader. This is a general session so don't feel the need to go too deep - focus more on the different elements.

## Dynamic Leadership - Developing Trust

### 13 Minutes

How do you build trust with a team or employee? What are the key concepts to ensure you are earning and retaining their trust? Trust is a fundamental part of employee retention, but more important is being able to get strong performance out of the employee or team.

## Dynamic Leadership - Creating Buy In

### 10 Minutes

This skill focuses on obtaining support and agreement from employees for a specific end goal, so that they want to achieve that goal themselves. Learn to how to get buy-in from employees to ensure they move the ball forward.

## Dynamic Leadership - Communicating Why

### 10 Minutes

Why do you follow a leader? What gets you excited to work towards a common goal? A leader lacking vision that is clearly communicated can be the demise of a business. How do you ensure this doesn't happen? What are the best ways to communicate the vision and how do you ensure it's aligned on and that your team is bought in. Doesn't matter if it is a business of 2 or 2000 employees, this is such a crucial skill.

## Dynamic Leadership - Key Training Principles

### 11 Minutes

To train someone effectively, don't focus on what is being trained; focus on how to approach a training plan, how to facilitate a training, how to identify the key learning styles and how you ensure the training works.

This skill focuses on the process used to coach someone as well as the tact needed to truly make a shift in skill or paradigm for the individual being coached.

## Dynamic Leadership - Employee Development Planning

### 12 Minutes

It is important that each employee continues to receive development on their core skills. This skill is about laying out a clear development plan; including how to set it up and structure it to ensure the employee gets the proper amount of development.

## Dynamic Leadership - Accountability Meetings

### 10 Minutes

Year-end reviews do not need to be a painful experience. This skill is about completing a performance review with an employee or even a client. Whether it be 60 days, 1 year or 10 years, it is all about creating a frequency that makes sense. The focus of this skill should be how you encourage people to look forward to performance reviews, gain value from them and be a strong piece of the excellent culture provided within the organization.

## Dynamic Leadership - Series Summary

### 2 Minutes

Becoming a great leader requires dedication to the craft. You may have natural charisma or be sociable enough to get by in the early stages of your leadership. But you have to be ready to make the right decisions for the organization and sometimes that does not make you popular with your team. How you handle that says more about your leadership skills than anything else.

### Phishing

#### 12 Minutes

Because today's computers and networks are heavily defended from a direct assault, hackers are now much more likely to target end-users when trying to break in. If hackers can trick you into divulging your username and password or inadvertently infecting your computer with malicious software, they can use your computer as a launching point to further penetrate your organization's network. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for recognizing and preventing both phishing and spear-phishing attacks.

### Security Awareness Essentials

#### 30 Minutes

This course covers a high level overview of the major standards and topics of the NIST. Employees will master the fundamentals of information security including key threats and how to counter them. By mastering the information presented in this course, employees will be able to defend workplace data from malicious threats and become certified in basic security awareness. This security awareness training course covers key security best practices end users should follow so they can prevent, detect, and respond to information security threats.

**Key Topics:** Introduction, password management, identity theft, malware, social engineering, phishing, physical security, travel safety, mobile data, ransomware expansion, spear phishing expansion, and privacy and acceptable use updated statistics.

# Cybersecurity Fundamentals

The fundamentals series provides a strong foundational layer of cybersecurity awareness and education across all users, and delivers the ability to reinforce that learning through interactive targeted reinforcement modules.

### A Day in the Life Theme: Security Awareness

#### 70 MIN

This course covers every topic required by major standards and regulations and is designed to change user behavior by diving deeply into each topic. Employees will master the fundamentals of information security including key principles, concepts, vulnerabilities, threats and how to counter them. By mastering the information presented in this course, employees will be able to defend personal and workplace data from malicious threats.

In this highly interactive course, learners will explore key information security concepts, examine threats and how to counter them and review safe computing habits that can be applied at home and in the workplace. By following the best practice lessons covered in this course, participants will be better able to recognize cyber threats and know how to defend against them.

**Key Topics:** Introduction, password management, viruses and malware, mobile data, physical security, social engineering, phishers, acceptable use policies incident response, security services, risk management, network eavesdropping, encryption, backups, protecting your home computer, and identity theft.

### Appropriate Use of Social Media

#### 14 Minutes

Social media can be an excellent tool to connect and interact with customers, show thought leadership, and build a brand, but it also poses unique security, HR, and public relations challenges.

This course covers social media best practices including secure use, accountability, harassment, how to spot scams, secure passwords, and advanced security features. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for social media.

### Defeating Social Engineers (Advanced)

#### 17 Minutes

With increasingly sophisticated technical defenses for networks and computer systems, hackers often decide that it's much easier to simply go around these perimeter defenses by attacking the end user. After all, end users have what they want - a computer that's behind the network firewall, a network username and password, and possibly access to trade secrets, confidential information, and bank accounts. This course will teach end users how to identify and avoid giving away sensitive information to these hackers.

### Defeating Social Engineers (Standard)

#### 90 Minutes

This course covers every topic required by major standards and regulations, and is designed to change user behavior by diving deeply into each topic. Employees will learn the fundamentals of information security including key principles, concepts, vulnerabilities, threats and how to counter them. By mastering the information presented in this course they will be able to defend your personal and workplace data from malicious threats and become certified in information security awareness and literacy.

**Key Topics:** Introduction, password management, viruses and malware, mobile data, physical security, social engineering, phishers, acceptable use policies incident response, security services, risk management, network eavesdropping, encryption, backups, privacy and legal issues, protecting your home computer and identity theft.

### PCI Essentials for Cardholder Data Handlers and Supervisors

#### 25 Minutes

This course teaches employees and supervisors what PCI DSS is, how it affects your organization and the best practices they should follow to protect cardholder data and detect and prevent fraud. This course is meant for employees and supervisors in companies that require PCI DSS - 3.2 compliance.

### Cloud Security

#### 9 Minutes

Cloud-based services offer incredible convenience and can help people be more productive, especially while on the go. But they also create new security challenges, because the security of any information stored on the cloud is only as good as the security of the service provider who holds it. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for cloud security.

### Data and Records Retention

#### 35 Minutes

Data in electronic and hard copy format within organizations is growing at a rate of about 125% per year and yet only 20% of that data is actually used to conduct business. Managing all of that data can become an administrative nightmare for you and the organization as a whole. This is especially true when litigation is pending and we must sift through all of our records to find certain pieces of data. This course will help you understand how to comply with the many laws, regulations, policies, and best practices that govern how long certain kinds of data should be kept and how and when to dispose of that data properly.

### GDPR: GDPR for Data Handlers

#### 8 Minutes

The European Union's General Data Protection Regulation (GDPR) took effect on May 25, 2018, ushering in sweeping changes to requirements for any organization that collects, maintains, or processes the personal data of individuals residing in the EU. Compliance with the GDPR will affect all our organization's data handling activities, either directly or indirectly, and all staff whose responsibilities include use of PII will be expected to operate in accordance with the regulation's safeguards. This course will provide employees a general awareness of the GDPR's requirements and how they affect our day-to-day data processing activities, as well as helping them to recognize potential problems should they arise.

## GDPR: How to Comply With the GDPR in the US

### 10 Minutes

The General Data Protection Regulation, or GDPR, contains principles for protecting the privacy of EU citizens' personal data. When it took effect in 2018, every organization, worldwide, that gathers, stores, or processes this data in any way, must comply with the strong data protections required under the GDPR. Upon completion of this module, learners will be able to recognize situations where the GDPR comes into play and what to do when they encounter data that falls under GDPR regulations in the US.

## GDPR: Introduction and Overview

### 20 Minutes

This comprehensive course is delivered in a series of short, concise modules targeted to specific areas of the law and targeted to defined roles contained within the GDPR. Participants will learn the fundamentals of the new regulations and the key concepts behind them. By the end of this course series, learners will be able to recognize situations where the GDPR comes into play and what to do when they do encounter data that falls under GDPR regulations.

\*Note: This course covers information for those who reside in an EU member country.

## GDPR: Navigating the GDPR with our US Partners

### 8 Minutes

The European Union's General Data Protection Regulation (GDPR) took effect on May 25, 2018, ushering in sweeping changes to requirements for any EU organization that collects, maintains, or processes the personal data of EU citizens, and exchanges of that data with organizations outside the EU will be significantly impacted. Since data transfers with the US represent a major share of these cross-border activities, this course will focus on a comparison of the differences between EU and US privacy laws, as well as exploring avenues by which EU-US information exchanges can be conducted.

## GDPR: Transfers of Data Outside of the EU

### 8 Minutes

This course is one of a multi-part series that covers the fundamentals of the EU's General Data Protection Regulation, or GDPR, as well as its origins and key concepts. The GDPR contains principles for protecting the privacy of EU citizens' personal data. When it took effect in 2018, every organization, worldwide, that gathers, stores, or processes this data in any way, must comply with the strong data protections required under the GDPR. In this module, you learn how the GDPR affects our organization when transferring or receiving EU citizens' private information outside the borders of the UK and EU.

## Incident Reporting

### 7 Minutes

Reporting incidents of suspicious activity and the loss of assets or sensitive information is extremely important. In this module, employees will learn about common physical and information security incidents that should be reported and how to report them.

## Information Security for Executives

### 14 Minutes

With the goal of breaching your network, cybercriminals have stepped up their efforts to target C-level executives, upper management and those with privileged access to an organization's systems with a variety of focused attacks. They are out to steal money, personal /credit info of clients and customers as well as intellectual property and other assets from organizations across the globe. And if yours is targeted, there may be more at stake than just losing data. It may mean the CEO and other executives' jobs. This course focuses on what executives can do to help keep their organization safe and their business-reputation intact in the face of today's cybercriminals. Participants will explore key concepts of executive-level information security concerns and what you can do to bolster your organization's overall security posture.

**Key Topics:** Whaling, Business Email Compromise (BEC), Travel Security (Dark Hotel, Evil Twin, etc.), Protecting an Organization, Security Awareness Programs, Support Staff and Threat Landscape.

## "Internet of Things" (IoT) and Home Security

### 10 Minutes

Almost anything can be made into a "smart" device, such as security cameras and sensors, TVs, garage door openers, door locks, wearable devices, pacemakers, and even cars. These devices are what we refer to as the "Internet of Things" (IoT), which holds the promise of adding a whole new level of convenience and connectedness to everyday life. Having that many new, connected computing devices, most of which record activity, presents new challenges for security and privacy. This course teaches employees the best practices for IoT devices both at home and at work.

## Introduction to the OWASP Top 10

### 15 Minutes

The Open Web Application Security Project (OWASP is a global community focused on improving the security of web application software. The OWASP Top Ten list is highly respected and has been adopted by, among other organizations, the Payment Card Industry (PCI) Security Standards Council. This short lesson reviews the top ten list to ensure all web application developers in your organization are exposed to it.

## Password Management

### 15 Minutes

Passwords are the keys to our digital lives and protect us from hackers and cybercriminals, but how exactly could a hacker crack your password and what can you do to protect it? This HTML5-based, iPad-compatible password management course uses high-quality video and real-world simulations to show the tactics hackers use to compromise accounts and the password security best practices that can help prevent that from happening.

## PCI Essentials for Cardholder Data Handlers and Supervisors

### 25 Minutes

This course teaches employees and supervisors what PCI DSS is, how it affects your organization and the best practices they should follow to protect cardholder data and detect and prevent fraud. This course is meant for employees and supervisors in companies that require PCI DSS – 3.2 compliance.

## PCI Requirements Overview for I.T. Professionals

### 40 Minutes

This course teaches I.T. professionals what PCI DSS is, how it affects your organization, how to comply with the 12 requirements and the best practices that front line staff should follow to protect cardholder data and detect and prevent fraud. This course is meant for IT Professionals in companies that require PCI DSS - 3.2 compliance.

## Phishing

### 12 Minutes

Because today's computers and networks are heavily defended from a direct assault, hackers are now much more likely target end-users when trying to break in. If hackers can trick you into divulging your username and password or inadvertently infecting your computer with malicious software, they can use your computer as a launching point to further penetrate your organization's network. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for recognizing and preventing both phishing and spear-phishing attacks.

## Physical Security

### 10 Minutes

Your personal safety at work is of paramount importance. This course is designed to teach employees how to protect an organization from criminals, espionage, workplace violence, natural disasters, and other threats. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach physical security best practices.

## Privacy and Data Protection

### 30 Minutes

This course will help employees understand what information is private, why it is private, and what they can do to protect it throughout the data lifecycle, which is the life of a piece of information, whether in paper or digital format, from creation to destruction within an organization.

## Privileged User Security

### 20 Minutes

Hackers and cybercriminals specifically target privileged users. After all, they have access to an organization's most prized data. This course will teach privileged users the security best practices they're expected to follow in order to defend against hackers.

## Protecting Mobile Data and Devices

### 8 Minutes

Because today's smartphones and tablets can not only act as a phone, but also as an email client, mobile Internet device, camera, GPS navigation system, entertainment console, and platform for any number of applications (apps), they can be exposed to many of the same risks as a desktop computer. By mastering the information presented in this course, employees will be able to defend workplace data from malicious threats and become certified in basic security awareness. This security awareness training course covers key security best practices end users should follow so they can prevent, detect, and respond to information security threats.

**Key Topics:** Introduction, password management, identity theft, malware, social engineering, phishing, physical security, travel safety, mobile data, privacy and acceptable use updated statistics, ransomware expansion, spear phishing expansion.

## Security Awareness for Managers

### 30 Minutes

This course is designed to educate managers to lead by example and encourage their teams to conduct everyday business in a responsible and secure way that reduces organizational risk, increases productivity and complies with policies, laws and regulations. Because they are the voice of your organization to their direct reports, your managers are in a unique position to influence the success or failure of your security awareness program, and their behavior and buy-in is a critical component of ensuring your cultural transformation to a security conscious organization.

**Key Topics:** Introduction, leading by example, security management practices and legal issues.

## Security Awareness for the Home

### 7 Minutes

Threats to our home network can quickly turn into threats to our workplace infrastructure and visa-versa. To combat against threats on all fronts, we must learn to practice safe computing habits both in the home and in the workplace. In this course, participants will be introduced to some key principles of safe system administration that they can use in the home that mirror techniques used in the workplace. By mastering the techniques found in this course, participants will learn to develop a regime of security-conscience behavior that will help keep important data safe from hackers, data thugs and cybercriminals.

## **Working Remotely**

### **12 Minutes**

Mobile computing devices like laptops, smartphones, and tablets can be found everywhere - at home, in the office, and everywhere in between. These devices, combined with high speed wireless connections, make working remotely easier than ever. However, working outside of a company's secured facilities expose an organization's physical and information assets to additional threats. This course gives the best practices for working remotely.

# Remote Worker Preparedness

## Recommended for:

- All Employees

In today's digital age, working remotely is becoming easier and more common. However, working outside of the office environment brings new cybersecurity threats. This Remote Worker Preparedness Solution provides your remote employees a strong understanding of how to keep data and information secure while working from outside the office and reinforces that learning through targeted reinforcement modules.

### Coronavirus Phishes and Scams

#### 5 Minutes

As the coronavirus pandemic has spread across the globe, cyber-attacks have also been on the rise. Cybercriminals have increased their phishing attacks and are creating new scams as more and more people are staying at home and potentially working remotely for the first time. This course will teach learners to recognize the current patterns and elements of coronavirus-based phishes and scams and provide best practices on how to avoid their traps and stay secure.

### Defending Against Phishers

#### 10 Minutes

Whether at work or at home, people around the world are inundated with millions of phishing threats every day. And we've seen how much damage these can cause, from exposure of people's private information, to millions of dollars spent to regain access to files infected with ransomware. And as the public grows more aware of these threats, cyber criminals evolve and look for ever-more sophisticated ways to trick would-be victims into "click the link." This all-new, animated course builds awareness about phishing threats with easy-to-apply best practices about how to recognize and defend against them.

### Email and Instant Messaging Security

## HIPAA / HITECH

The Department of Health and Human Services has mandated annual privacy and security training, as well as regular reminders, for all employees and Covered Entities. Our engaging HIPAA and HITECH training programs can help your organization meet this legal requirement - while encouraging an organizational culture in which all employees understand the importance of compliance.

### Recommended for:

- All Employees

### HIPAA/HITECH Privacy for Business Associates

#### 60 MIN

The final Omnibus rules for the Health Insurance Portability and Accountability Act (HIPAA), as amended by the HITECH Act places greater responsibility on all Business Associates to safeguard Protected Health Information. Business Associates and their subcontractors will, for the first time, have some absolute obligations for how they can use and disclose protected health information that they handle on behalf of the covered entity. This privacy course is specifically tailored to help employees of business associates understand what information is private, why it is private and what they can do to protect it.

### HIPAA/HITECH Privacy for Covered Entities

#### 60 MIN

The final Omnibus rule greatly enhances a patient's privacy protections, provides individuals new rights to their health information, and significantly strengthens the government's ability to enforce the law. Training employees to safeguard Protected Health Information (PHI) is a requirement of all "covered entities" based on the Health Insurance Portability and Accountability Act of 1996, as amended by the HITECH Act. This privacy course is specifically tailored to help healthcare employees understand what information is private, why it is private and what they can do to protect it.

### HIPAA/HITECH Information Security

#### 45 MIN

This course covers information security topics related to the Health Insurance Portability and Accountability Act (HIPAA) security rule. The HIPAA Security Rule requires covered entities to maintain reasonable and appropriate administrative, technical, and physical safeguards for protecting Electronic Protected Health Information (e-PHI).

**Key topics:** HIPAA compliance, information security basics, password management, online security threats and how to counter them, malware, insider threats, information classifications, proper information disposal, clear desk policy, social engineering, phishing, online scams, acceptable use policies and ethics and incident response.

# PCI Compliance

### PCI Essentials for Cardholder Data Handlers and Supervisors

#### 25 Minutes

This course teaches employees and supervisors what PCI DSS is, how it affects your organization and the best practices they should follow to protect cardholder data and detect and prevent fraud. This course is meant for employees and supervisors in companies that require PCI DSS - 3.2 compliance.

### PCI Requirements Overview for I.T. Professionals

#### 40 Minutes

This course teaches I.T. professionals what PCI DSS is, how it affects your organization, how to comply with the 12 requirements and the best practices that front line staff should follow to protect cardholder data and detect and prevent fraud. This course is meant for IT Professionals in companies that require PCI DSS – 3.2 compliance.

### Privacy and Data Protection

#### 30 Minutes

This course will help employees understand what information is private, why it is private, and what they can do to protect it throughout the data lifecycle, which is the life of a piece of information, whether in paper or digital format, from creation to destruction within an organization.

### Data and Records Retention

#### 35 Minutes

Data in electronic and hard copy format within organizations is growing at a rate of about 125% per year and yet only 20% of that data is actually used to conduct business. Managing all of that data can become an administrative nightmare for you and the organization as a whole. This is especially true when litigation is pending and we must sift through all of our records to find certain pieces of data. This course will help you understand how to comply with the many laws, regulations, policies, and best practices that govern how long certain kinds of data should be kept and how and when to dispose of that data properly.

## Introduction to Human Trafficking

### 30 Minutes

This introductory course is one of two courses on human trafficking. It will provide an overview of human trafficking and introduce the various aspects of this growing and heinous crime. While many different thoughts about this topic may come to mind, it's important to sift through the myths and truly understand and know what human trafficking looks like and how it operates. In doing so, this may be the best way to combat it.

## Countering Human Trafficking

### 30 Minutes

This course is the second of two courses that introduces the topic of human trafficking. Within the first course, *Introduction to Human Trafficking*, key terms such as human smuggling and human trafficking were defined and differences highlighted. A basic understanding of the types and stages of human smuggling and human trafficking were presented. How human trafficking works was also covered by looking at the mindsets of the trafficker and victim. The focus for this course engages the viewer to recognize the various red flags that may be identified based on whether the observable behavior or transaction is human smuggling or human trafficking. Reporting is a key issue; therefore, various aspects will be explored.
