

OnCourse Direct

OnCourse Direct Libraries

Simplify Training Program Management

With a fresh and modern experience, the **OnCourse Direct** learning management platform takes the complication out of organizing your learning programs. With the addition of OnCourse Direct Libraries, administrators can organize optional training courses into a catalog for employees to browse and complete training relevant to their role or career path.

Individual libraries can be created for training programs, self-paced courses and classroom courses providing employees a variety of training options - all in one platform.

BENEFITS

Create training programs relevant to employee role or career interests.

Ability to Group

Provide administrators the ability to group optional training for employees to browse and assign themselves based on role or career path

Access to New Courses

Automatically provide employees access to new courses as they become available

Reporting

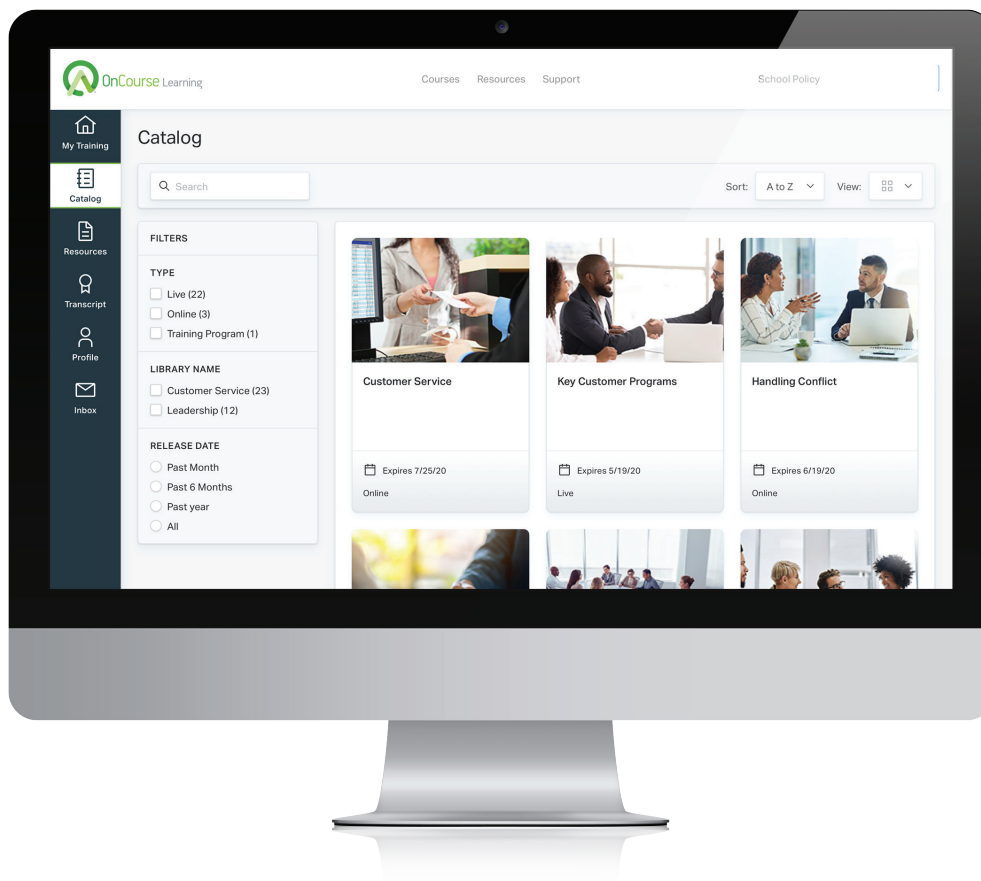

Report on all the courses employees are taking

Access & Manage

Access and manage required and optional training in one platform

CUSTOMIZATION

- ✓ Libraries can be created for training programs, self-paced courses and classroom courses.
- ✓ Students can browse and assign training themselves based on role or career path.
