Compliance Essentials

This package gives you access to the basics, with 16 courses aimed to provide an overall understanding of the mortgage compliance essentials.

A Borrower's Right to Privacy in a Mortgage Transaction ~ E3 40 Minutes

Privacy rights are a significant concern for mortgage professionals who are involved in the solicitation, origination, processing, closing and servicing of mortgage loans. Multiple laws protect the privacy of borrowers, and violation of these laws can result in serious liability. This course reviews the privacy laws that protect borrowers from the time they receive a solicitation for a mortgage loan until their loans are repaid. It also discusses the actions that are necessary to maintain compliance with privacy laws, which are an ongoing concern for mortgage professionals.

BSA and AML in Mortgage ~ E3 35 Minutes

This course explains the money laundering process and educates you about ways to prevent money laundering in your organization. The Bank Secrecy Act (BSA) helps the United States government combat money laundering and other illegal financial activity. Within the framework of the BSA, this course also discusses the key elements of an anti-money laundering (AML) compliance program, which is required for all financial institutions.

Equal Credit Opportunity Act: Regulation B ~ E3 35 Minutes

This course provides an overview of the Equal Credit Opportunity Act and its implementing Regulation B, which prohibits discrimination in any aspect of the credit process on the basis of race, gender, marital status, religion, national origin, age, color, receipt of public assistance income, or the exercise of rights under the Consumer Credit Protection Act. Important regulatory restrictions and precautions are discussed in the course, that involve taking the credit applications, evaluating the application, notifying applicants of the credit decision, and maintaining records of the loan. Who and what are covered by the law are explored. Adverse action and appraisal disclosure requirements are explained.

Fair Credit Reporting Act – FCRA ~ E3 30 Minutes

This course addresses the Fair Credit Reporting Act (FCRA) requirements for providing, obtaining, and using consumer credit information.

Fair Lending Overview ~ E3 30 Minutes

This course is intended to provide you with an understanding of the basic concepts regarding fair lending by explaining the fair lending laws and the penalties of breaking these laws.

Fair Lending Overview-Lending Staff ~ E3 40 Minutes

This course will provide you with an understanding of the basic concepts regarding fair lending that you need to understand and apply to customers and loans during any part of the loan life cycle.

Recommended for:

- All Mortgage Professionals
- Compliance Staff
- Mortgage Loan Originators
- Mortgage Processors
- Underwriters
- Closers

Home Mortgage Disclosure Act (HMDA) 20 Minutes

This course will review the background of HMDA and important amendments to its provisions, the legal and ethical importance of its reporting and disclosure requirements, as well as new standards for entities and individuals as a result of changes mandated by the Dodd-Frank Act.

Homeowners Protection Act (HPA) ~ E3 20 Minutes

This course provides a review of the provisions of the Homeowners Protection Act (HPA), including definitions associated with the Act, identification of entities covered by its provisions, disclosure requirements, guidelines for compliance with the HPA, and penalties for violations.

Red Flags of Fraud ~ E3 45 Minutes

This course will educate mortgage professionals on mortgage fraud, identity theft, and the dangers that these practices present to consumers and organizations alike. Students will also learn common indicators of fraudulent and harmful practices, and how to equip themselves to recognize and thwart unlawful transactions. Students will also gain an understanding of federal efforts to identify and prevent acts of identity theft, learning specific red flags of fraudulent use of consumer information and the steps that they can take in the mortgage process to detect and prevent fraud.

Real Estate Settlement Procedures Act (RESPA) ~ E3 30 Minutes

This course will review the requirements of the federal Real Estate Settlement Procedures Act (RESPA). Newly updated to incorporate recent rule changes by the CFPB, this course includes the most up-to-date information available regarding RESPA and its requirements, including those related to disclosures, servicing, fee prohibitions, and more.

Reporting and Recordkeeping Requirements ~ E3 30 Minutes

Reporting and recordkeeping are essential to BSA compliance, as the reports create the documentation needed to track criminal activity. This new microlearning video course explains the responsibilities of employees for collecting customer information to meet reporting and recordkeeping rules or reviewing and maintaining these reports.

Suspicious Activity Reporting (SAR) ~ E3 30 Minutes

The Bank Secrecy Act (BSA) and its related laws exist primarily to prevent money laundering and other illegal financial activity. To comply with the BSA, all financial institution employees must be able to detect and report suspicious activity. This new microlearning video course defines and identifies several types of suspicious activity and discusses your reporting responsibilities.

Suspicious Activity Reports - Red Flags for Lenders ~ E3

15 Minutes

The Federal Financial Institutions Examination Council's (FFIEC's) BSA/AML Examination Procedures provide examples of potentially suspicious activities, or "red flags," for both money laundering and terrorist financing. Red flags may help financial institutions recognize possible money laundering and terrorist-financing schemes. This new microlearning video course will introduce you to various examples of red flags relevant to your role at your financial institution.

TILA - RESPA Integrated Disclosure (TRID) ~ E3

45 Minutes

The enactment of the TILA-RESPA Integrated Disclosure (TRID) Rule was one of the most significant regulatory changes in recent history for mortgage lenders. With the intent of making the mortgage loan process more understandable for borrowers, the implementation of TRID included two distinctly new disclosures with specific timing rules for lenders. Students will be taken through an explanation of why the Loan Estimate and the Closing Disclosure are so important, including a page by page tour of each disclosure. This course is a must for any mortgage professional looking to stay compliant with TRID, mitigate unnecessary loan costs, or effectively manage pipelines to ensure timely closings.

Truth in Lending Act (TILA)

30 Minutes

In this course, participants will review the purpose of TILA, learn about creditors and loans regulated by TILA, explore required disclosures, and more. Students will review rescission rights, advertising requirements and prohibitions, and recent legislation implementing updated requirements for consideration of borrower repayment ability, qualified mortgages, higher-priced mortgage loans, escrow accounts and loan servicing.

Unfair, Deceptive, or Abusive Acts or Practices for the Financial Institution ~ E3

30 Minutes

This course covers unfair, deceptive, and abusive acts and practices that can cause significant financial injury to consumers, erode consumer confidence, and undermine the financial marketplace. This course describes the federal laws that protect consumers from financial harm associated with such practices and that involve financial products and services such as deposit products or lending activities.

Compliance Plus

Broaden your compliance training with 64 courses that cover a wide range of relevant regulatory topics.

Ability to Repay (ATR) and Qualified Mortgage (QM) Rules

60 Minutes

This course will help participants understand the importance of the Rule and its effect on the mortgage landscape, and will highlight compliance concerns that may arise. The course will also review some examples in the form of Discussion Scenarios.

Accurate and Ethical Advertising

30 Minutes

This course will review the legal and ethical importance of truthful and accurate advertising. The course will highlight some of the more important legislative changes related to advertising and accountability since the mortgage industry "meltdown." Specific provisions addressed include those under the Truth-in-Lending Act (Regulation Z) and the MAP Rule (Regulation N). The course will also review some examples based on real advertising that has been distributed throughout the consumer marketplace.

Americans with Disabilities Act ~ E3

60 Minutes

This course provides an overview of the Americans with Disabilities Act (ADA), its purpose, and how its provisions are organized. This course will specifically focus on the requirements of Titles I and III of the ADA. Your financial institution must comply with the employment provisions of Title I and the public accommodations provisions of Title III presented in this course.

Anti-Terrorism ~ E3

20 Minutes

Several federal laws have been passed to strengthen homeland security and help detect and deter terrorist activity in the financial sector. This course will discuss the U.S. government's efforts to combat terrorism and related illegal activities with the help of financial institutions like yours. The course will provide an overview of the U.S. anti-terrorism laws and the international anti-terrorism efforts. You will learn about common terrorist financing methods and how you can be a part of the effort to detect and deter that activity.

Appraisal and Evaluation Interagency Guidelines

30 Minutes

This course provides an overview of the appraisal and evaluation guidelines developed for all the federal financial institution bank, savings bank and credit union regulators.

Beneficial Ownership

30 Minutes

This course explains the requirements of the final rule on beneficial ownership and related customer due diligence (CDD), a CDD Rule issued by FinCEN. The impact of the newly required beneficial ownership transparency and the need to obtain information from customers who were not required to provide such information in the past is major. The implementation of the various aspects of this rule affect multiple departments and lines of business. The new regulatory requirements mandate review of and revisions to Customer Identification Programs, OFAC procedures, CIP/CDD Risk Assessments, and BSA/AML policies.

Recommended for:

- All Mortgage Professionals
- Mortgage Processors
- Compliance Staff
- Underwriters
- Mortgage Loan Originators
- Closers

Business Continuity and Disaster Recovery

90 Minutes

If a natural disaster or other unexpected catastrophic event disrupted your business's day-to-day operations, would you or your employees know what to do next? Learn about universal and location-specific threats, personal and employee preparedness, and the basics of building a business continuity plan for your institution.

CCPA

30 Minutes

In today's ever-advancing technology-driven environment, data is continually changing hands. Whether the data comes or goes by way of paper or computer, this information must be safeguarded to the fullest extent possible. Upon completion of this course, employees and supervisors will have a better understanding of the California Privacy Rights and Enforcement Act (CCPA) of 2020. This course is intended to help you recognize CCPA violations and how to address them.

Customer Information Security Awareness (CISA)

120 Minutes

Explore specific requirements and general rules you must follow to ensure the security of customer information.

Customer Due Diligence and Enhanced Due Diligence (CDD/EDD)

30 Minutes

CDD is a critical component of your institution's Bank Secrecy Act and anti-money laundering policies. Get to know the purpose of CDD guidelines, how CDD can help you understand your customers and better assess risk, and decide when CDD/EDD may be necessary. Practice your skills in an interactive scenario following the lesson.

Customer Identification Program (CIP) ~ E3

25 Minutes

This course explains the basic requirements of the Customer Identification Program (CIP) as prescribed by the USA PATRIOT Act. It details the six basic elements of a CIP and what types of customers and accounts are affected. Although each institution's Customer Identification Program will be tailored to its own specific needs and circumstances, this course will outline the law's requirements for collecting and verifying customer identifying information, including beneficial owners of legal entity customers.

Ethical Dilemmas and the Fight against Mortgage Fraud ~ E3

35 Minutes

This course will educate students on the ethical challenges faced by mortgage professionals prior to the market crash, legislation implemented to put a stop to these harmful practices, and how these efforts forever changed the face of the industry. In addition, students will learn the differences between predatory lending and mortgage fraud and how each presents their own risks to the safety of consumers and organizations alike, as well as various types of fraudulent and harmful practices and what they mean in a mortgage lending context. Mortgage professionals will learn how to avoid the pitfalls that led to the financial crisis, so they can protect themselves, the organizations they work for, and the welfare of their clients and the industry as a whole.

Exploring Mortgage Servicing Rules

60 Minutes

This course covers the Mortgage Servicing Rules and your responsibilities as a mortgage servicer.

Exploring Small Servicer Mortgage Servicing Rules

60 Minutes

This course will explore the Rules and their requirements, including those related to billing statements and information requests, error resolution, acceptance of payments, and loss mitigation. This course will also help students to understand policies and procedures, prohibitions, and the exemption for certain small servicers under the new regulations.

FACT Act Overview

30 Minutes

This course provides an overview of the FACT Act (Fair and Accurate Credit Transactions Act of 2003), which amends the Fair Credit Reporting Act (FCRA). The goal of the FCRA and the FACT Act is to "require that consumer reporting agencies adopt reasonable procedures for meeting the needs of commerce for consumer credit, personnel, insurance, and other information in a manner which is fair and equitable to the consumer, with regard to the confidentiality, accuracy, relevancy, and proper utilization of such information in accordance with the requirements of the Act."

Fair Debt Collection Practices Act (FDCPA) ~ E3

30 Minutes

The Fair Debt Collection Practices Act (FDCPA) regulates how debt collection agencies can contact and communicate with consumers. This course discusses the guidelines and regulations set by the FDCPA.

Fair Housing Act (FHA) ~ E3

20 Minutes

This course explains how the Fair Housing Act (FHA) fights discrimination in the residential real estate lending process. The course discusses the lending prohibitions and the advertising requirements under the FHA.

Federal Foreclosure Laws and Regulations

30 Minutes

This course looks at federal initiatives aimed at addressing the recent mortgage market crisis. Students will learn about federal efforts to curb harmful practices and create opportunities for struggling homeowners to regain ground and recover from the rampant foreclosures that took place from 2007 to 2011. This course discusses the circumstances that led to the market crisis, reasons behind the record numbers of foreclosures, and initial steps taken by the federal government to help the industry – and borrowers – bounce back. Areas covered include the Emergency Economic Recovery Act, HAMP, the MARS Rule, and the CFPB's Mortgage Servicing Final Rules. Students will learn the background and details of each law and their applicability in today's rebounding mortgage market.

Federal Regulation of Real Estate Appraisals

60 Minutes

Learn the necessary procedures your institution needs to follow to ensure compliance with the Federal Regulation of Real Estate Appraisals and the 1994 Guidelines.

Flood Disaster Protection Act

15 Minutes

Students will explore the origins of the FDPA, its most essential provisions, and the impact of recent legislation on the Act itself and on the industry in affected areas.

Handling Consumer Complaints

30 Minutes

This course explains why handling complaints is so important to a business' success and how to develop and implement an effective complaint program.

Home Ownership and Equity Protection Act (HOEPA) ~ E3

50 Minutes

This professional development online course is a review of HOEPA and its corresponding regulations. Participants will learn the origins of subprime and predatory lending, review HOEPA and its implementing regulations, requirements, and prohibitions, and review the impact of HOEPA and new lending standards. Students will also explore high-cost home loan thresholds, homeownership counseling requirements, higher-priced mortgage loan standards, expanded prohibitions, and more.

Interest Rate Risk Management

90 Minutes

This course discusses the responsibilities of senior management and the board of directors in the management of interest rate risk. It covers measuring interest rate risk, duration, and net economic value.

Loan Originator Compensation

30 Minutes

This course will provide students with the essential information necessary to understand the Rule, and will provide a review of the regulatory and industry concerns considered by the CFPB in its rulemaking. This course will help participants understand the importance of the Rule and its effect on the mortgage landscape.

Managing OREO

20 Minutes

Other Real Estate Owned (OREO) is a class of property that is owned by a lender after a foreclosure sale has not been successful. When the lender repossesses the property, the financial statement will classify the property as "other real estate owned" since owning the property was not in the lending institutions' original intent – they expected the loan to be repaid in full, with interest. This course will provide an overview of the OREO terms and concepts, the associated risks, and guidelines for managing the OREO situation.

Military Lending Act ~ E3

30 Minutes

This course provides knowledge of the Military Lending Act and its requirements for financial institutions.

Office of Foreign Assets Control (OFAC) ~ E3

30 Minutes

This course explains the purpose and mission of the Office of Foreign Assets Control (OFAC). The course will provide an overview of the coverage and scope of the sanctions and regulations administered by the OFAC. The sanctions and regulations require financial institutions, such as yours, to block or restrict transactions involving individuals, entities, or governments that are known or suspected of financial criminal activity. You will be an important participant in your financial institution's efforts to help ensure that terrorists, drug cartels, criminal enterprises, and foreign governments subject to U.S. economic sanctions are not using the U.S. financial system to circumvent U.S. economic sanctions, launder money, and further their illegal activities. The course will also describe the essential elements of a sound OFAC compliance program.

Providing Service to Customers with Disabilities

60 Minutes

Learn to better serve, interact with and accommodate customers who have disabilities. Practice your skills using case studies that will help you identify different disabilities, and discover steps you and your institution can take for a more accessible facility.

Red Flags Rule ~ E3

40 Minutes

The continued growth of identity theft harms consumers and damages the mortgage industry. The Federal Trade Commission's Red Flags Rule requires mortgage professionals to take steps to prevent this form of fraud. This course explains how to identify and minimize the impact of identity theft in order to protect customers and their personal information. It will also discuss the origins of federal efforts to fight identity theft, the overall requirements of the Red Flags Rule, give familiarity with the expectations that relate to the mortgage industry and review specific steps that mortgage professionals can take in the loan origination process to detect and help prevent identity theft.

Right to Financial Privacy Act (RFPA)

30 Minutes

Your customers' financial activities are protected under the RFPA. Explore the RFPA regulations, and see how and when the federal government can access customers' financial institution records.

Safeguarding Information: The Gramm-Leach-Bliley Act

30 Minutes

This course explores various aspects of the Gramm-Leach-Bliley Act (GLB Act). It discusses the purpose of the GLB Act, the protections offered under its provisions, details of the various privacy and opt-out notices it requires, and the differences in these requirements for consumers versus customers. The course also discusses practices prohibited and limited by the Act, as well as penalties for violations.

Servicemembers Civil Relief ACT – SCRA ~ E3

45 Minutes

This course focuses on the fundamentals of the Servicemembers Civil Relief Act (SCRA) and the Military Lending Act as they impact financial institutions. The SCRA and the Military Lending, although different in scope and specific application, both provide benefits and protections to members of the armed forces and impact financial institutions. Coaching is one of the four styles of leadership. It's most well known for helping develop the skills, mindset, or confidence needed to increase both skill and commitment to a task or goal. This skill focuses on the process used to coach someone as well as the tact needed to truly make a shift in skill or paradigm for the individual being coached.

Dynamic Leadership - Employee Development Planning

12 Minutes

It is important that each employee continues to receive development on their core skills. This skill is about laying out a clear development plan; including how to set it up and structure it to ensure the employee gets the proper amount of development.

Dynamic Leadership - Accountability Meetings

10 Minutes

Year-end reviews do not need to be a painful experience. This skill is about completing a performance review with an employee or even a client. Whether it be 60 days, 1 year or 10 years, it is all about creating a frequency that makes sense. The focus of this skill should be how you encourage people to look forward to performance reviews, gain value from them and be a strong piece of the excellent culture provided within the organization.

Dynamic Leadership - Series Summary

2 Minutes

Becoming a great leader requires dedication to the craft. You may have natural charisma or be sociable enough to get by in the early stages of your leadership. But you have to be ready to make the right decisions for the organization and sometimes that does not make you popular with your team. How you handle that says more about your leadership skills than anything else.

Prescriptive Selling

The Prescriptive Selling series provides your sales team with the skills necessary to sell more effectively, using proven sales process techniques. The courses in this series are focused micro-courses covering key learning skills every sales employee needs to know, including uncovering the client's need, selling the benefit, next step selling and more.

- Closers

Prescriptive Selling - Introduction

2 Minutes

Prescriptive Selling is all about setting yourself up for success during your sales process. Being able to plan accordingly, share the proper amount of information at the right time, and adjust on the fly given the situation are all components that lead to you becoming a better salesperson and lead to a signature on the dotted line.

Prescriptive Selling - Goal and Metric Planning

7 Minutes

This skill teaches clients how to set goals, how to measure success effectively, and how to build a detailed sales plan. An effective sales plan connects long-term goals to short-term goals.

Prescriptive Selling - Probing for Needs

9 Minutes

This skill focuses on uncovering what is most important to your client, so you can sell to their specific needs. This skill includes asking the right questions, specifically when and how to ask detailed questions.

Prescriptive Selling - Matching Benefits

11 Minutes

This skill focuses on matching specific benefits to the needs you found during probing portion of the sales process. Everyone wants to sell features; you need to sell perceived or received BENEFIT.

Prescriptive Selling - Building Urgency

10 Minutes

Make a consumer feel the need to make a decision sooner than they would have without your help. This skill is not about making a sale right now; it is about speeding up the decision timeline relative to where your client stands.

Prescriptive Selling - Situational Selling

10 Minutes

This skill teaches you to tailor every individual sale and to sell in the same style as the person you're selling to. No two sales should sound the same; if you're the kind of person who uses memorized lines to win sales, you're probably not winning often.

Prescriptive Selling - Next Step Selling

11 Minutes

This skill focuses on identifying the steps of a sales process and how to sell to the appropriate next step.

Prescriptive Selling - Trial Closing

8 Minutes

This skill uses specific, purposeful questions to help you identify if someone is ready to close. Trial closing puts a consumer in a buying mindset and helps them work through a decision in live time. It also gives a sales rep confidence and guidance to close at the right time.

Prescriptive Selling - Objection Handling

9 Minutes

This skill focuses on how to understand and respond to client objections to help you move closer to a sale.

Prescriptive Selling - Upselling

9 Minutes

This skill focuses on making and securing additional sales. It teaches clients how to lock in the next sale and how to create additional value to lock in future sales.

Prescriptive Selling - Series Summary

3 Minutes

Becoming a strong salesperson is not impossible, but it is also not going to be an easy journey. Each moment in sales requires experience, commitment, discipline, and intention. Some people sign a deal at 8:00am and go golfing the rest of the day, some people knock on doors until 5:00pm until they land a deal. Find out where you need to improve and put the time in.

Employment Law

These employment law courses are designed to meet mandatory training requirements from EEOC-compliance guidelines, landmark cases, federal sentencing guidelines to applicable federal regulations.

Recommended for:

- Compliance Staff

Avoiding Wrongful Termination

40 Minutes

This course will help managers to understand the principle of "at-will" employment and the important exceptions to the rule. At the completion of this course, managers will be able to identify practices that could create liability and identify methods for effectively handling termination to minimize the risk of a lawsuit. Preventive measures outlined in this course can be used to help avoid a costly wrongful termination claim.

Disability Discrimination and Accommodation for Managers

45 Minutes

The Americans with Disabilities Act (ADA), as amended by the ADA Amendment Act (ADAAA), and state and local laws prohibit employment discrimination against qualified individuals with a disability. Using hypothetical scenarios and practical exercises, this course teaches managers how to effectively and legally manage individuals with disabilities including the obligation to provide reasonable accommodations, if necessary. It also teaches preventive steps that a manager can take to avoid a claim of disability discrimination.

Employee Discipline

45 Minutes

Employee discipline is an important managerial responsibility. In this course, managers and supervisors will learn how to use a disciplinary system that corrects problem behavior and creates and maintains a productive, responsive workforce, while protecting the company from liability. Through interactive scenarios and exercises, managers will learn how and when to use informal versus formal disciplinary techniques, what the progressive steps of discipline are, "the importance of documentation and how to handle disciplinary meetings."

Employee Privacy: Balancing a Manager's Right to Know

30 Minutes

This course provides an overview of employee privacy in the workplace. Managers should know their state's regulations on privacy to achieve a balance between their need-to-know, with employees' right to freedom from undue intrusion into their personal lives. This course is for managers who wish to avoid litigation for invasion-of-privacy or defamation claims, yet who must sometimes consider drug testing, searches, discussion of an employee's behavior, or examination of an employee's after-hour activities. This course may also interest company executives who initiate company policy regarding privacy.

Employment Discrimination: Maintaining a Fair Workplace (Global)

8 Minutes

Everyone in the United States has the right to be treated fairly in employment. Equal employment opportunity laws exist to ensure that an organization's employees can work unimpeded by improper bias that could affect their employment. This course addresses personal characteristics that are protected by law or an organization's policy that may be improperly considered regarding employment conditions, such as recruitment, terms and conditions and termination. This course explores how employment discrimination involves making employment decisions based on protected personal characteristics, and the need to ensure that managers do not make illegal or otherwise improper employment decisions. This course provides an overview of employment discrimination.

Meal and Rest Break Training

15 Minutes

This mini-module is designed for California managers who supervise employees subject to California meal and rest break laws. In addition to learning the basic parameters of the laws governing the provision of mandatory rest breaks, managers will learn the essential "flash points" that lead to expensive class action lawsuits, including (but not limited to): scheduling; record keeping; supervision and policing (or lack thereof) of break times. Managers should take this course as a supplement to *California Wage and Hour* training for those managers interested in the nuances of meal and rest break laws.

Preventing Age Discrimination

20 Minutes

Workers of all ages can make strong contributions to a productive and effective workforce. Still, a recent study found that nearly 2 in 3 workers ages 45-74 reported having seen or experienced age discrimination in the workplace. This course familiarizes managers and supervisors with their ethical and legal responsibilities under the Age Discrimination in Employment Act (ADEA) and other anti-discrimination laws. Knowledge of the law is essential to avoid potentially costly lawsuits and can help to build a company culture rooted in trust and fairness.

Preventing and Addressing Sexual Harassment for Employees

30 Minutes

Sexual harassment continues to hurt organizations. This illegal conduct leaves emotional and psychological scars on targeted employees. Further, it also hurts overall team morale, productivity, collaboration, and other important objectives for a constructive workplace. Even perpetrators may not appreciate the risks they take when engaging in this conduct. A workplace that allows, and even encourages, this improper conduct cannot promote respect for all employees to obtain their best performance. This scenario-led training offers strategies for preventing unlawful harassment and helps employees understand how to respond appropriately if they witness or learn about this conduct. Finally, it provides employees with guidance about how to seek guidance or raise concerns regarding workplace harassment.

Preventing Employment Discrimination for Federal Agencies

45 Minutes

Equal employment opportunity (EEO) and other anti-discrimination laws protect federal sector employees and job applicants from discrimination based on protected grounds such as race, color, national origin, religion, sex and sexual orientation, pregnancy, age, mental and physical disability, genetic information, status as a parent, marital status, or political affiliation. This course teaches managers and supervisors working in federal government agencies to make employment decisions that comply with anti-discrimination laws, promote respect and fairness, and, in turn, prevent claims of discrimination and employer liability.

Preventing Employment Discrimination for Managers and Supervisors

45 Minutes

Title VII of the Civil Rights Act of 1964 and other federal and state equal employment opportunity (EEO) laws protect employees and job applicants from discrimination based on their race, color, religion, national origin, sex, disability, and other protected grounds. This course teaches managers and supervisors to make employment decisions that adhere to anti-discrimination laws, promote respect, improve morale, and, in turn, prevent claims of discrimination and employer liability.

Preventing Employment Discrimination: Employee Edition

45 Minutes

Everyone in the United States has a right to equal opportunity employment. Every company must be committed to prevent employment discrimination. To achieve this all managers, supervisors and the company staff must educate themselves about anti-discrimination policies and regulations. This course focuses on recognizing laws, regulations and policies that prohibit discrimination. It disseminates understanding regarding protected classes and the type of conduct that may be necessary to avoid harassment and discrimination. It has information about how to prevent discrimination and deal with retaliation in a proper way. There are numerous examples which will make your learning experience very engaging. Good Luck!

Preventing Unlawful Retaliation in the Workplace

45 Minutes

There are many laws governing the workplace that guarantee rights to individual workers, such as the right to be free from discrimination, the right to be paid minimum and overtime wages, and the right to join a union etc. Unlawful retaliation occurs when an employer imposes adverse consequences on an employee for exercising his or her rights or engaging in certain activities that are "protected" by law. Using scenarios and case studies, this course discusses the types of work-related activities that are protected by law, the types of behavior that can lead to a charge of retaliation, and the risks of failing to take steps to prevent unlawful retaliation in the workplace.

Preventing Unlawful Workplace Harassment for Federal Agencies: Employee Edition

30 Minutes

This course teaches employees who work in federal government departments and agencies about the human characteristics that are protected by anti-discrimination laws and the type of conduct related to the “protected classes” that can lead to a claim of unlawful workplace harassment. It also discusses the steps employees can take to prevent workplace harassment and what to do in the event they witness or experience it.

Preventing Unlawful Workplace Harassment for Federal Agencies: Manager Edition

45 Minutes

This course teaches managers and supervisors who work in federal government departments and their agencies about the human characteristics that are protected by anti-discrimination laws and the type of conduct related to the “protected classes” that can lead to a claim of unlawful workplace harassment. It offers strategies for preventing unlawful harassment and teaches managers how to respond appropriately when they learn of it. It also discusses the risk of liability to federal agencies and managers who fail to stop harassment or personally engage in harassing behavior.

Religious Discrimination and Accommodation

20 Minutes

Everyone in the United States has a right to equal opportunity in hiring and employment regardless of their religious beliefs. This course familiarizes managers and supervisors with their ethical and legal responsibilities under Title VII of the Civil Rights Act prohibiting religious discrimination and harassment in the workplace. It also discusses approaches to religious accommodation, allowing employees to adhere to religious customs and practices while at work.

Speak Up! Doing Right by Raising Concerns (Employee)

20 Minutes

A strong ethical culture requires that all staff are comfortable with raising concerns and managers are skilled with effectively receiving and responding to these concerns. This employee foundation two-module course covers the importance of a “speak up” workplace culture where everyone is committed and encouraged to raise concerns about questionable conduct. It also addresses how learners can effectively speak up to increase the chances for a concern to be understood.

Speak Up! Doing Right by Raising Concerns (Manager)

35 Minutes

A strong ethical culture requires that all staff are comfortable with raising concerns and managers are skilled with effectively receiving and responding to these concerns. This course covers the importance of a “speak up” workplace culture where everyone is committed and encouraged to raise concerns about questionable conduct. It also addresses how learners can effectively speak up to increase the chances for a concern to be understood. This manager version further addresses a manager’s duty to “listen up” - involving careful listening to employees’ concerns and taking action, as warranted, to address the concerns and reinforce management’s commitment to a “speak up” culture. Finally, it addresses a manager’s important responsibilities to support a non-retaliatory workplace for employees who raise or help to resolve concerns.

Understanding the Family Medical Leave Act (FMLA)

45 Minutes

The course is designed for managers or supervisors whose employees may request or require leave. It also provides an “advanced path” with more detailed information designed for FMLA-leave administrators (i.e., staff responsible for designating and qualifying leave requests as FMLA-qualifying). Users will learn about eligibility requirements, circumstances under which employees qualify for FMLA leave, pay and benefits employees are entitled to while on leave, and responsibilities for record keeping and posting notices regarding FMLA procedures.

- All Mortgage Professionals
- Compliance Staff

Introduction to Human Trafficking

30 Minutes

This introductory course provides an overview of human trafficking and introduces the various aspects of this growing and heinous crime. While many different thoughts about this topic may come to mind, it's important to sift through the myths and truly understand and know what human trafficking looks like and how it operates. In doing so, this may be the best way to combat it.

Countering Human Trafficking

30 Minutes

This course will focus on engaging the viewer to recognize the various red flags that may be identified based on whether the observable behavior or transaction is human smuggling or human trafficking. Reporting is a key issue; therefore, various aspects will be explored.

Cybersecurity Starter

These courses deliver a strong beginning for your first security awareness program. It offers a simple solution with easy deployment, and particularly geared towards not very complex organizations with a lower threat level.

Defending Against Phishers

12 Minutes

Because today's computers and networks are heavily defended from a direct assault, hackers are now much more likely to target end-users when trying to break in. If hackers can trick you into divulging your username and password or inadvertently infecting your computer with malicious software, they can use your computer as a launching point to further penetrate your organization's network. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for recognizing and preventing both phishing and spear-phishing attacks.

Security Awareness Essentials

30 Minutes

This course covers a high level overview of the major standards and topics of the NIST. Employees will master the fundamentals of information security including key threats and how to counter them. By mastering the information presented in this course, employees will be able to defend workplace data from malicious threats and become certified in basic security awareness. This security awareness training course covers key security best practices end users should follow so they can prevent, detect, and respond to information security threats.

Key Topics: Introduction, password management, identity theft, malware, social engineering, phishing, physical security, travel safety, mobile data, ransomware expansion, spear phishing expansion, and privacy and acceptable use updated statistics.

Cybersecurity Fundamentals

The fundamentals series provides a strong foundational layer of cybersecurity awareness and education across all users, and delivers the ability to reinforce that learning through interactive targeted reinforcement modules.

A Day in the Life Theme: Security Awareness

70 Minutes

This course covers every topic required by major standards and regulations and is designed to change user behavior by diving deeply into each topic. Employees will master the fundamentals of information security including key principles, concepts, vulnerabilities, threats and how to counter them. By mastering the information presented in this course, employees will be able to defend personal and workplace data from malicious threats.

In this highly interactive course, learners will explore key information security concepts, examine threats and how to counter them and review safe computing habits that can be applied at home and in the workplace. By following the best practice lessons covered in this course, participants will be better able to recognize cyber threats and know how to defend against them.

Key Topics: Introduction, password management, viruses and malware, mobile data, physical security, social engineering, phishers, acceptable use policies incident response, security services, risk management, network eavesdropping, encryption, backups, protecting your home computer, and identity theft.

Appropriate Use of Social Media

14 Minutes

Social media can be an excellent tool to connect and interact with customers, show thought leadership, and build a brand, but it also poses unique security, HR, and public relations challenges.

This course covers social media best practices including secure use, accountability, harassment, how to spot scams, secure passwords, and advanced security features. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for social media.

Defeating Social Engineers (Advanced)

17 Minutes

With increasingly sophisticated technical defenses for networks and computer systems, hackers often decide that it's much easier to simply go around these perimeter defenses by attacking the end user. After all, end users have what they want - a computer that's behind the network firewall, a network username and password, and possibly access to trade secrets, confidential information, and bank accounts. This course will teach end users how to identify and avoid giving away sensitive information to these hackers.

Baseline Information Security Training for IT Professionals

60 Minutes

This course is designed to provide fundamental information security knowledge that every employee in the IT Department must have in any organization. This course is easily customized to fit your particular policies, procedures, best practices and guidelines.

Cloud Security

9 Minutes

Cloud-based services offer incredible convenience and can help people be more productive, especially while on the go. But they also create new security challenges, because the security of any information stored on the cloud is only as good as the security of the service provider who holds it. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for cloud security.

Data and Records Retention

35 Minutes

Data in electronic and hard copy format within organizations is growing at a rate of about 125% per year and yet only 20% of that data is actually used to conduct business. Managing all of that data can become an administrative nightmare for you and the organization as a whole. This is especially true when litigation is pending and we must sift through all of our records to find certain pieces of data. This course will help you understand how to comply with the many laws, regulations, policies, and best practices that govern how long certain kinds of data should be kept and how and when to dispose of that data properly.

Email Security and Instant Messaging Security

11 Minutes

Email and instant messaging (IM) are essential communication tools that most people use just about every day. They're incredibly useful applications because they allow you to quickly and efficiently exchange messages and files with just about anyone else in the world. However, it's a two-way street, meaning that since you can connect with anyone online, anyone else, including hackers and cybercriminals, can connect with you. This course teaches employees email and IM best practices.

GDPR: GDPR for Data Handlers

8 Minutes

The European Union's General Data Protection Regulation (GDPR) took effect on May 25, 2018, ushering in sweeping changes to requirements for any organization that collects, maintains, or processes the personal data of individuals residing in the EU. Compliance with the GDPR will affect all our organization's data handling activities, either directly or indirectly, and all staff whose responsibilities include use of PII will be expected to operate in accordance with the regulation's safeguards. This course will provide employees a general awareness of the GDPR's requirements and how they affect our day-to-day data processing activities, as well as helping them to recognize potential problems should they arise.

GDPR: How to Comply With the GDPR in the US

10 Minutes

The General Data Protection Regulation, or GDPR, contains principles for protecting the privacy of EU citizens' personal data. When it took effect in 2018, every organization, worldwide, that gathers, stores, or processes this data in any way, must comply with the strong data protections required under the GDPR. Upon completion of this module, learners will be able to recognize situations where the GDPR comes into play and what to do when they encounter data that falls under GDPR regulations in the US.

GDPR: Introduction and Overview

20 Minutes

This comprehensive course is delivered in a series of short, concise modules targeted to specific areas of the law and targeted to defined roles contained within the GDPR. Participants will learn the fundamentals of the new regulations and the key concepts behind them. By the end of this course series, learners will be able to recognize situations where the GDPR comes into play and what to do when they do encounter data that falls under GDPR regulations.

*Note: This course covers information for those who reside in an EU member country.

Reporting incidents of suspicious activity and the loss of assets or sensitive information is extremely important. In this module, employees will learn about common physical and information security incidents that should be reported and how to report them.

Information Security for Executives

14 Minutes

With the goal of breaching your network, cybercriminals have stepped up their efforts to target C-level executives, upper management and those with privileged access to an organization's systems with a variety of focused attacks. They are out to steal money, personal /credit info of clients and customers as well as intellectual property and other assets from organizations across the globe. And if yours is targeted, there may be more at stake than just losing data. It may mean the CEO and other executives' jobs. This course focuses on what executives can do to help keep their organization safe and their business-reputation intact in the face of today's cybercriminals. Participants will explore key concepts of executive-level information security concerns and what you can do to bolster your organization's overall security posture.

Key Topics: Whaling, Business Email Compromise (BEC), Travel Security (Dark Hotel, Evil Twin, etc.), Protecting an Organization, Security Awareness Programs, Support Staff and Threat Landscape.

"Internet of Things" and Home Security

10 Minutes

Almost anything can be made into a "smart" device, such as security cameras and sensors, TVs, garage door openers, door locks, wearable devices, pacemakers, and even cars. These devices are what we refer to as the "Internet of Things" (IoT), which holds the promise of adding a whole new level of convenience and connectedness to everyday life. Having that many new, connected computing devices, most of which record activity, presents new challenges for security and privacy. This course teaches employees the best practices for IoT devices both at home and at work.

OWASP Top 10 Web Application Vulnerabilities

15 Minutes

The Open Web Application Security Project (OWASP) is a global community focused on improving the security of web application software. The OWASP Top Ten list is highly respected and has been adopted by, among other organizations, the Payment Card Industry (PCI) Security Standards Council. This short lesson reviews the top ten list to ensure all web application developers in your organization are exposed to it.

Password Management

15 Minutes

Passwords are the keys to our digital lives and protect us from hackers and cybercriminals, but how exactly could a hacker crack your password and what can you do to protect it? This HTML5-based, iPad-compatible password management course uses high-quality video and real-world simulations to show the tactics hackers use to compromise accounts and the password security best practices that can help prevent that from happening.

PCI Essentials for Cardholder Data Handlers and Supervisors

This course teaches employees and supervisors what PCI DSS is, how it affects your organization and the best practices they should follow to protect cardholder data and detect and prevent fraud. This course is meant for employees and supervisors in companies that require PCI DSS – 3.2 compliance.

PCI Requirements Overview for I.T. Professionals

40 Minutes

This course teaches I.T. professionals what PCI DSS is, how it affects your organization, how to comply with the 12 requirements and the best practices that front line staff should follow to protect cardholder data and detect and prevent fraud. This course is meant for IT Professionals in companies that require PCI DSS - 3.2 compliance.

Physical Security

10 Minutes

Your personal safety at work is of paramount importance. This course is designed to teach employees how to protect an organization from criminals, espionage, workplace violence, natural disasters, and other threats. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach physical security best practices.

Privacy and Data Protection

30 Minutes

This course will help employees understand what information is private, why it is private, and what they can do to protect it throughout the data lifecycle, which is the life of a piece of information, whether in paper or digital format, from creation to destruction within an organization.

Privileged User Security

20 Minutes

Hackers and cybercriminals specifically target privileged users. After all, they have access to an organization's most prized data. This course will teach privileged users the security best practices they're expected to follow in order to defend against hackers.

Protecting Mobile Data and Devices

8 Minutes

Because today's smartphones and tablets can not only act as a phone, but also as an email client, mobile Internet device, camera, GPS navigation system, entertainment console, and platform for any number of applications (apps), they can be exposed to many of the same risks as a desktop computer. Key Topics: Introduction, password management, identity theft, malware, social engineering, phishing, physical security, travel safety, mobile data, privacy and acceptable use updated statistics, ransomware expansion, spear phishing expansion.

Security Awareness for Managers

30 Minutes

This course is designed to educate managers to lead by example and encourage their teams to conduct everyday business in a responsible and secure way that reduces organizational risk, increases productivity and complies with policies, laws and regulations. Because they are the voice of your organization to their direct reports, your managers are in a unique position to influence the success or failure of your security awareness program, and their behavior and buy-in is a critical component of ensuring your cultural transformation to a security conscious organization.

Key Topics: Introduction, leading by example, security management practices and legal issues.

Security Awareness for the Home

7 Minutes

Threats to our home network can quickly turn into threats to our workplace infrastructure and visa-versa. To combat against threats on all fronts, we must learn to practice safe computing habits both in the home and in the workplace. In this course, participants will be introduced to some key principles of safe system administration that they can use in the home that mirror techniques used in the workplace. By mastering the techniques found in this course, participants will learn to develop a regime of security-conscience behavior that will help keep important data safe from hackers, data thugs and cybercriminals.

The European Union's General Data Protection Regulation (GDPR) took effect on May 25, 2018, ushering in sweeping changes to requirements for any organization that collects, maintains, or processes the personal data of individuals residing in the EU. Compliance with the GDPR will affect all our organization's data handling activities, either directly or indirectly, and all staff whose responsibilities include use of PII will be expected to operate in accordance with the regulation's safeguards. This course will provide employees a general awareness of the GDPR's requirements and how they affect our day-to-day data processing activities, as well as helping them to recognize potential problems should they arise.

GDPR: How to Comply With the GDPR in the US

10 Minutes

The General Data Protection Regulation, or GDPR, contains principles for protecting the privacy of EU citizens' personal data. When it took effect in 2018, every organization, worldwide, that gathers, stores, or processes this data in any way, must comply with the strong data protections required under the GDPR. Upon completion of this module, learners will be able to recognize situations where the GDPR comes into play and what to do when they encounter data that falls under GDPR regulations in the US.

Remote Worker Preparedness

In today's digital age, working remotely is becoming easier and more common. However, working outside of the office environment brings new cybersecurity threats. This Remote Worker Preparedness Solution provides your remote employees a strong understanding of how to keep data and information secure while working from outside the office and reinforces that learning through targeted reinforcement modules.

Coronavirus Phishes and Scams

5 Minutes

As the coronavirus pandemic has spread across the globe, cyber-attacks have also been on the rise. Cybercriminals have increased their phishing attacks and are creating new scams as more and more people are staying at home and potentially working remotely for the first time. This course will teach learners to recognize the current patterns and elements of coronavirus-based phishes and scams and provide best practices on how to avoid their traps and stay secure.

Defending Against Phishers

10 Minutes

Whether at work or at home, people around the world are inundated with millions of phishing threats every day. And we've seen how much damage these can cause, from exposure of people's private information, to millions of dollars spent to regain access to files infected with ransomware. And as the public grows more aware of these threats, cyber criminals evolve and look for ever-more sophisticated ways to trick would-be victims into "click the link." This all-new, animated course builds awareness about phishing threats with easy-to-apply best practices about how to recognize and defend against them.

Email and Instant Messaging Security

11 Minutes

Email and instant messaging (IM) are essential communication tools that most people use just about every day. They're incredibly useful applications because they allow you to quickly and efficiently exchange messages and files with just about anyone else in the world. However, it's a two-way street, meaning that since you can connect with anyone online, anyone else, including hackers and cybercriminals, can connect with you. This course teaches employees the email and IM best practices to protect both their organization's sensitive information and their own personal information and identity from attack.

Phishing Defense Essentials

7 Minutes

Learn how to stay ahead of hackers and cyber criminals who aim to steal data and insert malicious payloads by learning and applying the best practices outlined in this module.

Protecting Mobile Data and Devices

8 Minutes

Because today's smartphones and tablets can not only act as a phone, but also as an email client, mobile Internet device, camera, GPS navigation system, entertainment console, and platform for any number of applications (apps), they can be exposed to many of the same risks as a desktop computer. This HTML5-based, iPad-compatible course uses high-quality video and real-world simulations to teach best practices for mobile security.

"The Internet of Things" and Home Security

10 Minutes

Almost anything can be made into a "smart" device, such as security cameras and sensors, TVs, garage door openers, door locks, wearable devices, pacemakers, and even cars. These devices are what we refer to as the "Internet of Things" (IoT), which holds the promise of adding a whole new level of convenience and connectedness to everyday life. Having that many new, connected computing devices, most of which record activity, presents new challenges for security and privacy. This course teaches employees the best practices for IoT devices both at home and at work.

Security Awareness for the Home

7 Minutes

Threats to our home network can quickly turn into threats to our workplace infrastructure and vice-versa. To combat against threats on all fronts, we must learn to practice safe computing habits both in the home and in the workplace. In this course, participants will be introduced to some key principles of safe system administration that they can use in the home that mirror techniques used in the workplace. By mastering the techniques found in this course, participants will learn to develop a regime of security-conscience behavior that will help keep important data safe from hackers, data thugs and cybercriminals.

Working Remotely

7 Minutes

Mobile computing devices like laptops, smartphones, and tablets can be found everywhere - at home, in the office, and everywhere in between. These devices, combined with high speed wireless connections, make working remotely easier than ever. However, working outside of a company's secured facilities expose an organization's physical and information assets to additional threats. This course gives the best practices for working remotely.

HIPAA / HITECH

The Department of Health and Human Services has mandated annual privacy and security training, as well as regular reminders, for all employees and Covered Entities. Our engaging HIPAA and HITECH training programs can help your organization meet this legal requirement - while encouraging an organizational culture in which all employees understand the importance of compliance.

HIPAA/HITECH Privacy for Business Associates

60 MIN

The final Omnibus rules for the Health Insurance Portability and Accountability Act (HIPAA), as amended by the HITECH Act places greater responsibility on all Business Associates to safeguard Protected Health Information. Business Associates and their subcontractors will, for the first time, have some absolute obligations for how they can use and disclose protected health information that they handle on behalf of the covered entity. This privacy course is specifically tailored to help employees of business associates understand what information is private, why it is private and what they can do to protect it.

HIPAA/HITECH Privacy for Covered Entities

60 MIN

The final Omnibus rule greatly enhances a patient's privacy protections, provides individuals new rights to their health information, and significantly strengthens the government's ability to enforce the law. Training employees to safeguard Protected Health Information (PHI) is a requirement of all "covered entities" based on the Health Insurance Portability and Accountability Act of 1996, as amended by the HITECH Act. This privacy course is specifically tailored to help healthcare employees understand what information is private, why it is private and what they can do to protect it.

HIPAA/HITECH Information Security

45 MIN

This course covers information security topics related to the Health Insurance Portability and Accountability Act (HIPAA) security rule. The HIPAA Security Rule requires covered entities to maintain reasonable and appropriate administrative, technical, and physical safeguards for protecting Electronic Protected Health Information (e-PHI).

Key topics: HIPAA compliance, information security basics, password management, online security threats and how to counter them, malware, insider threats, information classifications, proper information disposal, clear desk policy, social engineering, phishing, online scams, acceptable use policies and ethics and incident response.

This course is meant for IT Professionals in companies that require PCI DSS – 3.2 compliance.

Privacy and Data Protection

30 Minutes

This course will help employees understand what information is private, why it is private, and what they can do to protect it throughout the data lifecycle, which is the life of a piece of information, whether in paper or digital format, from creation to destruction within an organization.

Data and Records Retention

35 Minutes

Data in electronic and hard copy format within organizations is growing at a rate of about 125% per year and yet only 20% of that data is actually used to conduct business. Managing all of that data can become an administrative nightmare for you and the organization as a whole. This is especially true when litigation is pending and we must sift through all of our records to find certain pieces of data. This course will help you understand how to comply with the many laws, regulations, policies, and best practices that govern how long certain kinds of data should be kept and how and when to dispose of that data properly.
